PROFESSIONAL EXPERIENCE

Software Engineer

SABI 

05/2022 – present
lagos, Nigeria

Sabi is the largest B2B platform enabling informal trade in Africa.

- Led the development of a responsive and user-friendly web application using modern frontend technologies such as HTML5, CSS3, and JavaScript framework, React.js.
- Implemented robust and scalable frontend architecture, following best practices and design patterns to ensure maintainability and extensibility of the codebase.
- Collaborated closely with designers, product managers, and backend engineers to translate wireframes and user stories into pixel-perfect, interactive UI components.
- Optimized website performance by conducting code reviews, identifying and resolving performance bottlenecks, and implementing efficient caching strategies.
- Participated in Agile development process and contributed to sprint planning and daily stand-up meetings
- Assisted in designing architecture of solutions using third-party application program interfaces, services and software libraries.
- Researched new technology solutions to challenges identified by Client.
- Developed the latest user-facing features using React.js and built reusable components for future use on the business core applications.
- Optimized components for maximum performance across a vast array of web-capable devices and browsers
- Troubleshoot interface software and debugged application codes to improve functionality and performance by 50%

Junior Software Engineer

SABI 

06/2021 – 04/2022
lagos, Nigeria

- Implemented a new look design for the Sabi Admin application, App wide.
- Implemented App tour for the "Buy Now", "Store Features" and New "Wallet" features by designing one reusable component that allows for DRY (Do not Repeat Yourself) concept.
- Participated in daily scrum meetings, sprint planning
- Conducted unit testing and debugging activities to ensure software quality and functionality.
- Translate designs & wireframes into high-quality code following React.js workflows

- Redesigned existing modules and enabled integration and styling of third-party packages like toastify, react-modern-calendar-datepicker, etc.

Frontend developer Intern

RideApp

09/2020 – 05/2021

Lagos, Nigeria

- Developed and implemented highly responsive user interface components using React concepts
- Collaborated with senior developers to optimize features to work seamlessly across different browsers and devices
- Fetched data from APIs and tested endpoints

Business Analyst

INFORMATION LIFECYCLE MANAGEMENT LIMITED,

07/2019 – 08/2020

lagos, Nigeria

- Analyzed client requirements and objectives and determine how software can best meet client's requirements and objectives
- Functional requirement gathering
- Documentation and Fit-Gap analysis
- Participated in Implementation and deployment of Proposed Solutions for Agency Requirements in D365 and customizations
- Conduct Meetings
- Participated in Performing data migration activities
- Creating and maintaining business, project, and technical documentation
